

## Test Report

Report No. TUV(I)/860/16-17/0041602272 A

Date: 04 May 2016

**TUV INDIA PRIVATE LIMITED**  
TÜV NORD House,  
Survey No. 42, 3/1 & 3/2,  
Dist. Pune - 411 021  
Tel. : +91 2067900000/ 01  
Email : pune@tuv-nord.com  
Website : www.tuvindia.co.in

**Name and address of customer** : **ALPHA PLASTOMERS PVT. LTD.**  
**Plot No. 374, Alpha Industrial Park,**  
**Athiawad, Dabhel, Daman – 396210**  
**(U.T.) (INDIA)**

**Name of the sample** : **POF Shrink Film**

**Lab sample Id No.** : **0041602272**

**Mfg. date/Best before** : -

**Batch No./ Code no.** : -

**Objectives Of Examination** : To test for compliance with Commission Regulation (EU) No 65/2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment  
Testing is Performed on individual component as per Customer's Request.

**Regulation Requirement** : As per Annexure II of the Commission Regulation (EU) No 65/2011.

**Description of sample** : One sample of 'POF Shrink Film' received for analysis of Cadmium, Hexavalent Chromium, Lead, Mercury, Polybrominated Biphenyls & Polybrominated Diphenyl Ethers. Enclosure-Sample Images

**Date of sample receipt** : **21 Apr 2016**

**Date(s) of analysis** : **26 Apr 2016 -03 May 2016**

**Sample drawn by** : **Customer**

|                   |  |
|-------------------|--|
| <b>Conclusion</b> | Given Sample Conforms with Commission Regulation (EU) No 65/2011 on the Restriction of the use of certain Hazardous Substances in Electrical and Electronic Equipment for above mentioned test parameters. |
|-------------------|--|

| Sr. No.                               | Name of Analyte           | Result | Unit  | Detection Limit | Limits as per ROHS Directive | Test Method   |
|---------------------------------------|---------------------------|--------|-------|-----------------|------------------------------|---|
| 1                                     | Cadmium                   | <10    | mg/kg | 10 mg/kg        | 100 mg/kg                    | Method based on IEC 62321 : 2008 & Committee Draft 111/95/CDV |
| 2                                     | Lead                      | 15     | mg/kg |                 | 1000 mg/kg                   |   |
| 3                                     | Mercury                   | <10    | mg/kg |                 | 1000 mg/kg                   |   |
| 4                                     | Hexavalent Chromium       | <10    | mg/kg |                 | 1000 mg/kg                   |   |
| <b>Polybrominated Diphenyl Ethers</b> |                           |        |       |                 |                              |   |
| 5                                     | Mono-Bromodiphenyl Ether  | <10    | mg/kg | 10 mg/kg        | 1000 mg/kg                   | Method based on IEC 62321 : 2008 & Committee Draft 111/95/CDV |
|                                       | Di-Bromodiphenyl Ether    | <10    |       |                 |                              |   |
|                                       | Tri-Bromodiphenyl Ether   | <10    |       |                 |                              |   |
|                                       | Tetra-Bromodiphenyl Ether | <10    |       |                 |                              |   |
|                                       | Penta-Bromodiphenyl Ether | <10    |       |                 |                              |   |
|                                       | Hexa-Bromodiphenyl Ether  | <10    |       |                 |                              |   |
|                                       | Hepta-Bromodiphenyl Ether | <10    |       |                 |                              |   |
|                                       | Octa-Bromodiphenyl Ether  | <10    |       |                 |                              |   |
|                                       | Nona-Bromodiphenyl Ether  | <10    |       |                 |                              |   |
|                                       | Decabromodiphenyl Ether   | <10    |       |                 |                              |   |
| <b>Polybrominated Biphenyls</b>       |                           |        |       |                 |                              |   |
| 6                                     | Mono-Bromobiphenyl        | <10    | mg/kg | 10 mg/kg        | 1000 mg/kg                   | Method based on IEC 62321 : 2008 & Committee Draft 111/95/CDV |
|                                       | Di-Bromobiphenyl          | <10    |       |                 |                              |   |
|                                       | Tri-Bromobiphenyl         | <10    |       |                 |                              |   |
|                                       | Tetra-Bromobiphenyl       | <10    |       |                 |                              |   |
|                                       | Penta-Bromobiphenyl       | <10    |       |                 |                              |   |
|                                       | Hexa-Bromobiphenyl        | <10    |       |                 |                              |   |
|                                       | Hepta-Bromobiphenyl       | <10    |       |                 |                              |   |
|                                       | Octa-Bromobiphenyl        | <10    |       |                 |                              |   |
|                                       | Decabromobiphenyl         | <10    |       |                 |                              |   |

Note : Limits are as per Annexure II of EU/65/2011 Restriction of the use of Hazardous Substances (ROHS) Directive.
